

Is Kosovo planning a solar auction?

Kosovo is planning a series of auctions for renewable energy and battery energy storage systems. Minister of Economy Artane Rizvanolli has revealed plans for further procurement exercises for 950 MW of renewables, totaling EUR 1.2 billion, after announcing the shortlisted bidders in the nation's first solar auction.

Does Kosovo have a battery storage plan?

According to its energy strategy, Kosovo also plans to hold two auctions for battery storage projects with a cumulative capacity of 170 MW. The minister expects that 45 MW/90 MWh and 125 MW/250 MWh battery storage procurement exercises will be launched this year in cooperation with US-based Millennium Challenge Corp. (MCC).

How much will Kosovo's new solar power plant cost?

In addition, procedures are scheduled to be announced in the fourth quarter for a solar power plant of 100 MW for government-controlled power utility Kosovo Energy Corp. (KEK) and a solar thermal system for district heating in Prishtina, according to Rizvanolli. The contracts will have a combined value of EUR 180 million, she added.

Will Kosovo invest in solar power projects in Pristina?

Another procurement exercise will seek to deploy a solar district heating project in Pristina. According to its energy strategy, Kosovo also plans to hold two auctions for battery storage projects with a cumulative capacity of 170 MW.

What is Kosovo's Energy Strategy?

The energy strategy foresees 170 MW in battery operating power. In addition, procedures are scheduled to be announced in the fourth quarter for a solar power plant of 100 MW for government-controlled power utility Kosovo Energy Corp. (KEK) and a solar thermal system for district heating in Prishtina, according to Rizvanolli.

Why is electricity expensive in Kosovo?

Usually, in Kosovo the imported energy is much more expensive than export. This is because Kosovo imports energy one day before needed, in the other hand energy is exported during the night when the demands are under generating level. Imports and exports have a negative impact for electrical energy price.
