

# Private contract for photovoltaic panel installation

Can a provider sell a photovoltaic system to a customer?

WHEREAS, Provider has offered, at his sole cost and expense, to install, maintain, own, replace, repair, and operate a photovoltaic system at one or more of the Property (ies) and to sell Solar Services (as hereafter defined) produced by the solar photovoltaic system to Customer as provided in and subject to the provisions of this Agreement.

Should homeowners pay for solar panels upfront?

Homeowners who pay for their panels upfront with cash, or through a solar loan, will see something different than someone who signs a solar lease or solar power purchase agreement (PPA). While solar contracts will differ by provider and project, most of them contain a certain amount of shared verbiage and content.

What makes a good solar installation contract?

Like most contracts, home solar contracts can be filled with all kinds of terms, language, and details that the average person might not be familiar with. A good solar installation contract is designed to protect both you and your solar provider, so it's important to understand the various sections and what they mean.

What is a solar PPA agreement?

Under a solar PPA agreement, the solar developer retains responsibility for operating and maintaining the solar energy system over the life of the contract. They'll perform annual inspections, repair any damage, and monitor the system to ensure its performance is continually optimized.

Is a solar power purchase agreement a good idea?

Instead, you can enjoy lower energy bills while powering your home with green energy. PPAs may also be a good solar option if you do not have the ability to claim the lucrative incentives or tax credits. How does a solar power purchase agreement work?

What happens at the end of a solar PPA contract?

At the end of your contract, you have the option to extend the PPA, purchase the solar panels at market value, or cancel and have the solar panels removed. Review your contract to evaluate all purchase options and terms. Ending or acquiring an existing solar PPA contract is known as a solar PPA buyout.
