

Prolux Solutions is starting the rollout of its long-life battery storage for homes. The STORAC home storage system uses non-combustible redox flow battery technology and is produced in Europe in favour of short delivery distances. The 6 kWh storage unit was specially designed for private homes and intensively tested in practice.

Sicher, langlebig und nachhaltig: das sind die Kennzeichen unseres STORAC Redox-Flow Speichers f&#252;r Photovoltaikanlagen. Mit ihm machen wir die seit den 90er Jahren bew&#228;hrte Redox-Flow Speichertechnik - auch bekannt als Flussbatterie - f&#252;r das Eigenheim nutzbar.

Our latest project with the Swiss company Arbonia, whose brands include prolux, is the STORAC battery storage system. As a future-proof product, which has an optimal combination of sustainability, aesthetics as well ...

The STORAC battery storage system is the sustainable alternative to conventional battery storage systems that keeps its value. As a decentralised storage solution that supplies electricity, it makes a power ...

Our latest project with the Swiss company Arbonia, whose brands include prolux, is the STORAC battery storage system. As a future-proof product, which has an optimal combination of sustainability, aesthetics as well as functionality, STORAC was awarded the Design Plus Award at the ISH 2023 in Frankfurt.

German redox flow battery manufacturer Prolux Solutions, a unit of Swiss building supplier Arbonia, has developed a new residential storage system with a capacity of 10 kWh. It claims that the STORAC 4/10 battery has a charging and discharging capacity of 4 kW and a peak power of 5 kW.

German redox flow battery manufacturer Prolux Solutions, a unit of Swiss building supplier Arbonia, has developed a new residential storage system with a capacity of 10 kWh. It claims that the STORAC 4/10 battery has ...

The STORAC battery storage system is the sustainable alternative to conventional battery storage systems that keeps its value. As a decentralised storage solution that supplies electricity, it makes a power supply from 100 % renewable energies possible at all, even when there is no active renewable energy, for example no solar radiation.

Sicher, langlebig und nachhaltig: das sind die Kennzeichen unseres STORAC Redox-Flow Speichers f&#252;r Photovoltaikanlagen. Mit ihm machen wir die seit den 90er Jahren bew&#228;hrte Redox-Flow Speichertechnik - auch bekannt als ...

Der Prolux Heimspeicher STORAC basiert auf der Redox-Flow-Technologie und steht einer gro&#223;en Anzahl von Lithium-Ionen-Speichertechnologien und -anbietern gegen&#252;ber. Wo diese mit sicherheitstechnischen und ethischen Herausforderungen zu k&#228;mpfen haben, kann Prolux mit STORAC auf eine nicht brennbare L&#246;sung und den v&#246;llichen Verzicht auf sel-
