PSW Power & Automation delivers complete solutions within electrification and renewable energy. The company specializes in the design and integration of ESS and electrical power systems, electrical infrastructure, energy storage and energy control.

PSW Power and Automation is a leader in the development and supply of mobile, semi-mobile and permanently installed battery storage and general energy solutions. We provide storage solutions for island, microgrid and grid-connected architecture in industrial projects as well as larger scale infrastructure projects.

PSW Power & Automation (PSW) delivers the BQ-G modular battery pack for use in energy storage systems. Suitable for large-scale energy storage, the solution stores excess energy generated by renewable sources and

releases it into the grid as needed.
