

# Ranking of Japanese solar power lamp manufacturers

Which is the best PV module brand in Japan?

The Latest Ranking of Top PV Module Brands in Japan has Been Released, and JinkoSolar has retained the Top Spot as No.1 Brand. Recently, PVeye media, an authoritative research agency in Japan market, released the report on Japan's 2020 PV module shipments.

Who makes solar panels in Japan?

In 2020, Kaneka's see-through photovoltaic modules were added to the Japan National Stadium. Kyocera Solar has been producing solar panels since 1975. In 2021, Kyocera completed restoration work on a 13.7-MW floating solar park in Japan. Sharp Solar has been harnessing the power of the sun since 1959 (that's over 60 years!).

Is Japan a good country to invest in solar panels?

Back in 2010 Japan was riding high in the solar industry as Japanese solar companies were the top solar panel producers in the world. Japan was expected to stay in the number one position for the foreseeable future as the country led the pack in innovation as well as panel quality.

Which solar companies have the most solar power?

Longi Solar took the first spot with 45 GW to 47 GW, followed by Trina Solar with around 43 GW and JinkoSolar with 42 GW to 43 GW. JA Solar came in fourth with 39.75 GW, followed by Canadian Solar with 21.1 GW, and Risen Energy with 16 GW. High-power, large-format modules dominated the market last year, according to TrendForce.

Why are solar panels so expensive in Japan?

One of the reasons for this is the relatively high cost of producing solar panels in Japan compared to other Asian countries. IMS Research has noted that the rise of low cost Chinese solar panels has taken away from Japan's market share in the PV industry.

Are Japanese companies laggards in solar technology?

Despite being technological leaders, Japanese companies are laggards when it comes to manufacturing solar technology at scale. Data from GlobalData shows that the current top ten manufacturing companies by pipelines of solar are predominantly Chinese. After all, technological advancement does not necessarily equal industrial output.
