

What is a 405 W Hyundai solar panel?

This 405 W Hyundai solar panel also comes with a generous 25-year product warranty. HiS-S405YH (BK) is resistant to PID, salt, acid and ammonia. It can also withstand up to 5400 Pa mechanical load on the front and 4000 Pa on the back. Such robustness is mainly due to the 1.38" thick anodized aluminum frame and a layer of protective glass.

What are the advantages of his-s405yh (BK) solar panels?

Another advantage is the half-cut cell technology. HiS-S405YH (BK) has solar cells half the size of those installed in conventional panels. The main benefits are decreased power loss, improved longevity and better low-light performance. At 20.3% efficiency, HiS-S405YH (BK) offers surprising performance for its weight and size.

Do REC alpha solar panels come with a warranty?

The REC Alpha solar panels come with a robust warranty package that offers extensive protection and assurance for customers. The 25-year product warranty covers any defects in the panel, while the 25-year performance warranty ensures that the panels will perform as expected each year for a quarter of a century.
