

Rent a rooftop solar power plant in the countryside

Should you rent out your roof space for a solar system?

Renting out your own roof space for the operation of a solar system offers the owner a lucrative secondary income stream. We operate the system and feed the electricity into the grid receiving a remuneration for the sale of energy. The roof owner can benefit by renting out his roof space without having to invest himself.

Do you pay upfront for a solar system?

We pay attractive prices for your roof area in order to install a solar system there. You will receive a high upfront payment or an annual roof rental for the specified duration of at least 20 years. Why is a first-time easement placed in the property register?

Should you invest in a solar roof?

In this case, an investment of this magnitude is not advisable. Nevertheless, there is an easy way for these companies to exploit the solar potential of their roof area - by leasing their roof to ENVIRIA. It's uncomplicated and worthwhile: you rent out your roof to us and we install a PV system that we operate and maintain ourselves.

Is a solar land lease right for You?

By leasing land to solar developers, landowners can receive long-term passive income with predictable rates as well as a vast range of other benefits. Learn how a solar land lease might be right for you! What is a Solar Land Lease?

Why should I rent out my roof to enviria?

It's uncomplicated and worthwhile: you rent out your roof to us and we install a PV system that we operate and maintain ourselves.
