

# Rental housing can be built under the photovoltaic panels

Should you add solar panels to a rental property?

Adding solar panels to a rental property can increase its desirability to prospective renters, which may lead to higher rental value. Tenants are attracted to the lower utility costs associated with solar energy, as well as the environmental benefits of using renewable energy.

How do I choose a solar panel system for my rental property?

**Roof Space:** The available roof space on your rental property will determine how many solar panels you can fit onto it, which affects the overall capacity of your solar panel system. **Budget:** Your budget plays a significant role in deciding how big or small you want to go with a solar panel system installation.

What are the benefits of solar panels on a rental property?

Another benefit of solar panels on a rental property is the increase in property value. Advanced technology such as solar panels can attract more interest, especially from environmentally-conscious renters.

Can a homeowner lease or rent a solar power system?

No, only the homeowner can enter an agreement to lease or rent a solar power system. Furthermore, solar leases and rentals are designed to be long-term arrangements, so there's a big financial penalty for removing the solar panels before the contract term is up.

1. Ask your landlord to install solar panels

Are solar panels safe for rental properties?

By selecting a reputable solar installation company and implementing a proactive maintenance and inspection plan, you can ensure your solar panel system remains efficient and safe throughout its lifecycle on your rental property. Solar panels are generally considered safe for use in rental properties.

Can a landlord install a solar panel system?

While you may be able to pitch your landlord to install a rooftop solar panel system, community solar is more likely to be your best bet to enjoy the benefits of solar if you don't own your roof space through incentives like virtual net metering. Community solar participants can earn credits back on their electricity bill, saving money every month.
