

What is renusol vs+?

The Renusol VS+ is a modular design system: Connection to the roof by means of roof hooks, hanger bolts, standing seam clamps. Mounting rails in different colours, sizes and lengths. Universal clamps provide for a robust locked fastening of the PV modules. You will find other products in our catalogue Or just select in the Online PV Configurator

What type of roof is renusol vs+ suitable for?

Renusol VS+ is suitable for nearly all types of pitched roofs in Europe. The reasonable choice of roof hooks allows the installation in the roof with the most diverse roof covering materials and substructures. Two mounting rails for medium and high load. Module clamps adjustable for different frame heights.

Does renusol work with JA Solar?

Following a project-specific requirement, Renusol tested together with JA Solar combined systems of Renusol mounting system on pitched tile roof as well as metal roof (VS+ and MS+) together with JA solar panels.

Who is renusol Europe?

Renusol Europe GmbH specialises in the manufacturing and sale of PV mounting systems for roof-integrated, rooftop and flat-roof installations. Since 2017, the Pari Group acquired the company and has continued the business of Renusol GmbH, which has been active on the solar market since 1997.

Are renusol systems safe?

Renusol systems are on the safe side. Our experienced technicians advise you, our online-tools are comfortable and transparent, and we deliver reliably. We, at Renusol, do everything imaginable to facilitate our customers' life.

Why should you choose renusol?

Furthermore, we accomplished to combine the middle and end clamp for PV mounting systems in only one product - certainly patented and unique at the market. With Renusol, you have to hold in stock clearly fewer working appliances than with a comparable system. This saves space, money and time that you can reserve for more important things.
