

What is renusol vs+?

The Renusol VS+ is a modular design system: Connection to the roof by means of roof hooks, hanger bolts, standing seam clamps. Mounting rails in different colours, sizes and lengths. Universal clamps provide for a robust locked fastening of the PV modules. You will find other products in our catalogue Or just select in the Online PV Configurator

Does renusol work with JA Solar?

Following a project-specific requirement, Renusol tested together with JA Solar combined systems of Renusol mounting system on pitched tile roof as well as metal roof (VS+ and MS+) together with JA solar panels.

What type of roof is renusol vs+ suitable for?

Renusol VS+ is suitable for nearly all types of pitched roofs in Europe. The reasonable choice of roof hooks allows the installation in the roof with the most diverse roof covering materials and substructures. Two mounting rails for medium and high load. Module clamps adjustable for different frame heights.

Are renusol systems safe?

Renusol systems are on the safe side. Our experienced technicians advise you, our online-tools are comfortable and transparent, and we deliver reliably. We, at Renusol, do everything imaginable to facilitate our customers' life.

Who is renusol?

For almost a quarter of century Renusol has been available for you as competent contact partner for PV mounting systems. In the course of this, for the implementation of your PV projects, we are always offering you solutions that are far easier in the application than those of our competitors.

Why should you choose renusol PV mounting systems?

This means: With the Renusol PV mounting systems, you are on the safe side - with a proven durability of 25 years. For many years, our customers appreciate the first-class technical advice provided by our technical engineers and the fast delivery by shipping - usually within 72 hours within Europe.

Following a project-specific requirement, Renusol tested together with JA Solar combined systems of Renusol mounting system on pitched tile roof as well as metal roof (VS+ and MS+) together with JA solar panels.

This is exactly the problem: When working with a standard mounting structure system like that provided by Renusol or Schletter, it is difficult to deviate from their engineered solution, and the customer gets the ...

Renusol's VS+ universal mounting system is suitable for nearly all types of pitched roofs in Europe. VS+ is a modular design system and can be used with pitched roofs on commercial industrial agricultural (except hydrogen sulfide exposition) and residential buildings.

This is exactly the problem: When working with a standard mounting structure system like that provided by Renusol or Schletter, it is difficult to deviate from their engineered solution, and the customer gets the engineering that they paid for, both in strength of design as well as selection of materials.

The Renusol VS+ is a modular design system: Connection to the roof by means of roof hooks, hanger bolts, standing seam clamps. Mounting rails in different colours, sizes and lengths. Universal clamps provide for a robust locked fastening of the PV modules.

It's not just the UK, we have business links to Zimbabwe. We are supporters of the United Nations SDG Program and are currently developing programs to support this. Check out our international website for Off Grid Egg Incubators .
