

What are the energy resources in Haiti?

Haiti has limited energy resources: no petroleum or gas resources, small hydroelectricity potential and rapidly declining supplies of wood fuels. With very limited access to electricity, most of the population in Haiti depends on charcoal as a source of energy.

How does electricity work in Haiti?

With very limited access to electricity, most of the population in Haiti depends on charcoal as a source of energy. The National Electricity Company (Electricité d'Haiti - EDH) was created in 1971 to operate the newly built Pégre hydroelectric plant and the nation's power system.

How does a lack of capacity affect the electricity sector in Haiti?

Since the MTPTC is the main government body in charge of the electricity sector, this lack of capacity affects directly the performance of the sector. In 2017, the World Bank invested a total of \$35 million in Haiti in order to improve access and expansion of renewable energy.

Why is distributed solar PV the only energy source in Haiti?

Since only about 13% of the people even have grid access, distributed solar PV is the only energy source that can supply all the people electricity for now. Haiti has limited energy resources: no petroleum or gas resources, small hydroelectricity potential and rapidly declining supplies of wood fuels.

How can Haiti improve energy resilience?

In the face of these obstacles, Haiti is forging a path toward energy resilience with support from USAID and the National Renewable Energy Laboratory (NREL). Central to this effort is the development of energy modeling frameworks and trainings, microgrids, agrivoltaics, and off-grid solar power to enhance energy resilience and security in Haiti.

What is the institutional framework of the electricity sector in Haiti?

The institutional framework of the electricity sector in Haiti is weak. The entity in charge of the energy sector is the Ministry of Public Works, Transports and Communications (MTPTC). The minister is also the president of the executive board of the state-owned power company, EdH (Haiti Electricity Company).
