

What is Solus power?

Solus Power is at the cutting edge of delivering versatile energy solutions that cater to a broad spectrum of needs. Our pioneering technology, which combines rapid charging with robust energy storage, is designed for quick deployment within weeks, eliminating the need for significant capital investment or the challenges of grid connectivity.

How does Romania support the production of solar / PV energy?

The Romanian State supports the production of solar / PV energy by offering six (6) green certificates for each MWh produced and injected into the grid.

Who is Solus power & QinetiQ?

Solus Power, a leading innovator in electric vehicle (EV) charging solutions, has signed a Memorandum of Understanding (MOU) with global defence and security company, QinetiQ. Solus Power is at the forefront of an energy revolution, driven by the global shift towards sustainable and innovative energy solutions.

How do I contact Solus power?

For any enquiries or assistance, please visit the 'Contact Us' page and complete the contact form provided there. Where is Solus Power located? Solus Power is headquartered in London, with our Engineering office located at the Warwick Innovation Centre. We have a global presence, boasting offices and partners in various countries.

Why is Romania a great country for solar power?

Romania was a major player in the solar power industry, installing in the 1970s and 1980s around 800,000 m² (8,600,000 sq ft) of low quality solar collectors that placed the country third worldwide in the total surface area of PV cells.

What is Solus power's Titan?

Solus Power's Titan represents a groundbreaking advancement in the energy sector, introducing an off-grid, rapid EV charging and energy storage system with unparalleled versatility for commercial and military applications.

5 ????#0183; Romania's GDP per capita in PPS (Purchasing Power Standard) is similar to that of Poland, and over the one in Hungary. A similar situation can be observed in terms of wages, ...

Solus Power????????????????,????????????????????,????????????????????,????????????????

Solar power in Romania had an installed capacity of 1,374 megawatt (MW) [1] [2] as of the end of 2017. The country had in 2007 an installed capacity of 0.30 MW, which increased to 3.5 MW by the end of 2011, [3] and to 6.5 MW by the end of 2012.

Solus Power provides an extensive array of off-grid, smart rapid-charging, and energy storage solutions designed to meet the diverse needs of modern energy demands. Our offerings encompass cutting-edge technology tailored for efficient and reliable energy management, ensuring seamless operation even in the most remote locations.

SolaX Power Romania has been recognized as the 2024 Top PV Supplier Inverter by EUPD Research, solidifying its status as a trusted and leading provider of solar solutions. This prestigious award reflects the confidence the Romanian market places in SolaX products, known for their high efficiency, durability, and advanced technology.

Solus Power is at the cutting edge of delivering versatile energy solutions that cater to a broad spectrum of needs. Our pioneering technology, which combines rapid charging with robust energy storage, is designed for quick deployment ...

SolaX Power ofera solutii energetice inovatoare pentru proprietari, companii si utilitati. Descoperiti gama noastra de invertoare solare avansate, baterii si sisteme de management al energiei. ...

Solus Power is at the cutting edge of delivering versatile energy solutions that cater to a broad spectrum of needs. Our pioneering technology, which combines rapid charging with robust energy storage, is designed for quick deployment within weeks, eliminating the need for significant capital investment or the challenges of grid connectivity.

Solus Power is leading the way in revolutionizing the energy sector through the development of off-grid mobile DC-to-DC rapid charging and energy storage technologies. This innovative approach allows for high-power charging solutions that operate independently off traditional grid infra-structure, presenting significant opportunities across a ...

SolaX Power ofera solutii energetice inovatoare pentru proprietari, companii si utilitati. Descoperiti gama noastra de invertoare solare avansate, baterii si sisteme de management al energiei. Experienta un viitor verde cu SolaX Power.

Romania's solar power sector is experiencing explosive growth, driven primarily by prosumers. As of August 2023, the combined capacity of these small-scale solar installations surpassed 2 GW, with over 166,000 households, businesses, and institutions participating.</p>
