

Does Generac sell in Russia?

Generac has a sales office outside Moscow that handles sales in the Russian market. The company also has sales offices in Germany and Poland that can serve Ukraine. Generac exports home standby generators to Europe and other regions from its plants in Wisconsin and South Carolina.

What is a Generac home backup generator?

A Generac home backup generator is a permanently installed system that protects your home automatically. Generac created the home backup generator category and is preferred by 8 out of every 10 homeowners who invest in home backup power.

Is Generac a good backup generator stock to buy?

Despite the current pre-pandemic level price of Generac's shares being around \$100, Generac is a leader in the backup generator market which appears to be poised for long-term growth. I think it makes sense to start a small position and average in over the next several months.
