

State-owned Unidade de Gestao de Projetos Especiais (UGPE) published a tender on 8 March to build four solar PV plants, including a 1.3MW plant on Fogo island, a 1.2MW facility on Santo Antao island and two 0.4MW plants on the islands of Sao Nicolau and Maio, along with a storage component.

Praia, Cape Verde - On Thursday, July 18, 2024, the United States government, through the U.S. Agency for International Development (USAID) and Power Africa, in partnership with the Government of Cabo Verde and the private sector launched a clean energy solar mini-grid plant located at Ch&#227; das Caldeiras in the Santa Catarina do Fogo ...

Cabo Verde ups renewable energy output with launch of mini-grid. Investing in renewable energy projects . The country boasts a 93% electricity access rate, raching a 433GWh capacity in 2022. Its energy supply is sourced primarily from thermal power, followed by wind power and solar energy.

The government of Cape Verde has launched a call for expressions of interest for the construction of four solar PV power plants, co-financed by international development partners. The tender aims to achieve 30% energy production from renewable sources by 2025 and around 50% by 2030, reducing consumer electricity prices in the country.

The ECOWAS Centre for Renewable Energy and Energy Efficiency (ECREEE) has inaugurated a renewable energy project in Ribeira Alta, Cabo Verde, enhancing sustainable electricity access in the remote region. Funded by the ECOWAS Special Intervention Fund, this initiative underscores the commitment to energy equity and development in underserved areas.

photovoltaic (PV) and solar water heating systems in hospitals in Cabo Verde. Based on the feasibility studies, it will finance the provision and installation of 300 kW PV systems in the six regional hospitals of Cabo Verde (Hospital Agostinho Neto and Hospital

The project development objective (PDO) is to increase the generation of solar renewable energy in Cabo Verde. Has the Project Development Objective been changed since Board Approval of the Project Objective?

The project development objective (PDO) is to increase the generation of solar renewable energy in Cabo Verde. Has the Project Development Objective been changed since Board Approval ...

The ECOWAS Centre for Renewable Energy and Energy Efficiency (ECREEE) inaugurates a solar mini-grid project in Ch&#227; das Caldeiras, Cabo Verde, providing universal electricity access to 800 residents. Funded by the Cabo Verde government, USAID, and ECREEE, the project marks a significant milestone in sustainable energy development.

Manuel Nunes helps remote island communities, who find it a challenge to meet electricity costs, with affordable solar panels allowing them access to renewable and cheaper electricity.
