

Where are s-energy solar panels made?

The company, formally known as S-Energy Co., Ltd, has its main office in Gyeonggi-do, South Korea and sales branches in Chile, Japan, and the United States. S-Energy is now recognized by Bloomberg New Energy Finance (BNEF) as a Tier 1 solar panel manufacturer. Find out what makes Tier 1 solar panels important here.

Is s-energy a Tier 1 solar panel manufacturer?

S-Energy is now recognized by Bloomberg New Energy Finance (BNEF) as a Tier 1 solar panel manufacturer. Find out what makes Tier 1 solar panels important here. S-Energy's manufacturing facility is located in Daejeon, South Korea, and can produce up to 500 MW of solar modules per year.

Is solar energy the future of Japan's Energy Strategy?

Solar energy in Japan is emerging as a cornerstone of Japan's strategy to meet its ambitious long-term sustainability goals. The Sixth Strategic Energy Plan aims for carbon neutrality by 2050 with an interim goal of 36-38% of energy from renewables by 2030.

Is s-energy a publicly traded company?

In 2007, S-Energy became the first publicly-traded renewable energy company in Korea pursuant to its IPO on the Korean stock exchange (KOSDAQ). The company mainly focuses on the "S-Energy" branded PV solar modules, but has worked exclusively with some of the industry's major players under their private brand.

Is s-energy liable for damaged solar panels?

The problems seem to be about panels that were produced during the early 2010s and it's not clear that the company ever admitted liability for replacing the damaged modules mentioned in that article, but it's something to be aware of if you're considering S-Energy for your solar build.

Should you buy s-energy solar panels?

In general, these modules should survive just fine, and given S-Energy's reputation for aggressive pricing under most of the other panels on the market, it might be okay to go with a slightly higher annual degradation rate in the interest of saving money. First, the company is publicly traded on the Korean KOSDAQ stock exchange.
