

Is Saatvik solar certified by BIS?

SolarQuarter Saatvik Solar, a Leading Manufacturer, And Topcon Modules Are Now Certified By The Bureau of Indian Standards, Setting Solar Benchmarks. Saatvik Solar, a leading manufacturer of premium solar modules in India, announced today that the Bureau of Indian Standards (BIS) has granted approval for India's 16 BB Bifacial N-TOPCon Module.

What is Saatvik solar doing in 2023?

Explore Saatvik Solar's 2023 journey, expanding to 3GW annual production with N-TopCon technology. Ambitious plans for 5GW, global expansion, and CEO Prashant Mathur's emphasis on innovation make Saatvik a key player in sustainable energy solutions. Discover their strategic approach and impactful portfolio, shaping a greener future.

Who is Saatvik solar?

Saatvik Solar is the "India's premier Solar Pv Module manufacturers" dedicated to driving sustainable energy solutions for a brighter future. Established with a vision to revolutionize the solar industry, we pride ourselves on being pioneers in the field, with a state-of-the-art manufacturing facility strategically located in Ambala, Haryana.

Why is Saatvik launching a new solar plant?

The new Ambala facility uses mono PERC half cut MBB technology to make its modules. According to the announcement, the expansion is in response to the government's aim to reach 280 GW of solar by 2030 and to encourage manufacturing of high-efficiency modules. Saatvik says it has so far sold more than 800 MW of PV modules.

Will India's Saatvik solar invest 22 billion rupees?

NEW DELHI, Sept 26 (Reuters) - India's Saatvik Solar is in talks with international lenders to fund its 22 billion rupees (\$263 million) expansion plan over the next two years, its chief financial officer Abani Jha said on Thursday. The company, which owns 3.8 gigawatt (GW) solar modules capacity, plans to set up 2 GW solar cells manufacturing
