The Pylontech Low-Voltage Combiner Hub is designed to expand the capacity of a Pylontech battery bank beyond the default single-string capacity of 16 batteries. Using a Low Voltage Combiner Hub, we can connect up to 96 Pylontech batteries to create a fully communicating 460.8 kWh power bank.

Our Rack Mounted Battery Cabinets are available in various configurations and are supplied fully assembled. Each cabinet utilises a ventilated top and four 19" adjustable front and rear mounting posts.

What sets the Pylontech Battery Cabinet apart? It's sturdily built with welded seams on all corners, comes fully assembled, and is practically indestructible. Access to the interior is through a gasketed door with a top and bottom locking system, reminiscent of ...

The cabinets feature ventilation slots in the top, have a lockable glass front door, and removable sides. The cabinet is finished in a high quality attractive black. Batteries need to be attached using front battery mounting holes.

This kit is designed for up to six Pylontech US200B+ batteries to be stacked in a cabinet. Includes cables, cable pack, Keto switch, fuses, EZ Meter enclosure and 15U Cabinet with glass door. Please contact one of the team if you require a bespoke kit for a different amount of batteries.

Safeguard your investment and keep your Pylontech US2000 lithium-ion battery modules secure, organized, and well-ventilated with the Pylontech US2000 Cabinet 2G. This durable and functional storage solution is an essential addition to your energy storage system.

The Pylontech US5000C is an advanced lithium-ion battery offering 4.8kWh of energy storage, designed for optimal performance in solar and off-grid systems. This new version boasts a superior C rate, improving charge and discharge times.

With the Pylontech battery cabinet (mpn 012u) you can safely store and accommodate Pylontech battery modules of the us2000c and us3000c series. Ventilation slots allow air circulation in the cabinet. Ventilation slots allow air circulation in the cabinet.
