Renewable energy is not used on the island, except for very few solar panels. Our project of Waste-to-Energy (PI project) will produce about 8% of the total energy consumption. Saint-Martin is located in the French Antilles.

As the world grapples with the challenges of climate change, this tropical paradise is harnessing the power of the sun to transform its energy landscape. In this blog post, we will explore the untapped potential of solar energy on the island and how it is playing a pivotal role in shaping a sustainable future.
