Eight consortiums won 15-year power purchase agreements (PPAs) today in Albania for their solar power projects as the Ministry of Infrastructure and Energy opened their bids. The difference from the past two successful competitive bidding processes for photovoltaics, for the sites of Karavasta and Spitalla, this time the investors were ...

The Albanian government has approved two significant solar photovoltaic (PV) projects proposed by local companies, with a combined capacity exceeding 100 MW. This decision was announced by the Council of Ministers on Thursday.

The tie-up between Turkish energy group Smart Gunesh Teknolojileri and Albania's Erseka Solar divided its project proposal into two lots with installed capacities of 40.3 MW and 20.2 MW respectively.

The Albanian Ministry of Infrastructure and Energy received four new applications regarding the issuance of permits to construct solar power plants in the Balkan country. The three proposed solar farms will have less than 2 MW installed capacity, allowing energy project initiators to benefit from government support measures.

KARAVASTA, Albania (AFP-Jiji) -- Along southwestern Albania's coastline, the sun shines bright -- warming the 234,828 new solar panels at the Karavasta power station that will be connected to...

Albania's solar sector is expected to grow significantly in the next few years, thanks to its sunny weather and an array of supportive policies. BNEF estimates up to 800MW in solar will be added by 2030 - 29 times the 28MW of solar capacity installed in 2022.
