

Will Scatec build Lesotho's first independent solar plant?

The company announced on Thursday it has entered into an agreement with the local government and the Lesotho Electricity Company to build the country's first independent power producer (IPP) solar plant. Scatec will build, operate and majority own the PV park under a 25-year power purchase agreement (PPA).

Will Lesotho build its first IPP solar project?

Scatec has entered an agreement with the Lesotho Electricity Company and the Government of Lesotho to build the country's first IPP solar project of 20MW. The Power Purchase Agreement, and Connection Agreement and Implementation Agreement were signed at an official ceremony in Lesotho capital Maseru last week.

Who will fund a solar project in Lesotho?

The Renewable Energy Performance Platform (REPP) will fund the solar project. Scatec, Norwegian investment fund Norfund, startup One Power Lesotho, Izuba Energy and the Lesotho Pension Fund will act as equity co-sponsors. Financial close is expected early next year, Scatec pointed out in the press release. Choose your newsletter by Renewables Now.

Does Lesotho have electricity?

Scatec will build, operate and majority own the facility under a 25-year Power Purchase Agreement with financial close expected early next year. Lesotho relies mostly on hydropower but is not energy secure and energy access rates are low. Only around 6% of rural households are connected to the grid.

This expertise in glass led to Schott's development of solar applications. Schott Solar's shareholder is Schott AG which has been in the specialty glass market for over 100 years. Schott's ASE 300 solar panel is "the largest standard module ...
