

What is sdc10-box5 series?

SDC10-Box5 series are suitable for 51.2V low voltage ESS. It adopts high safety, high cycle, high reliability and minimalist design. The system can be paralleled, with capacity extended to 81kWh, applied in grid-connected, off-grid, photovoltaic and all kinds of green and low-carbon applications of household ESS.

Is there a difference between sda10 & sdc10 box 5?

Mine is a SDC10-Box 5 Is there much difference? The shoto batteries look to be very much the same inside, it's just the housing that is different. The SDA10 is a rack mount battery and the SDC10 is stackable. They are both 16S 5.12kwh LFP batteries and use the same seplos BMS.

Are sda10 & sdc10 batteries the same?

The shoto batteries look to be very much the same inside, it's just the housing that is different. The SDA10 is a rack mount battery and the SDC10 is stackable. They are both 16S 5.12kwh LFP batteries and use the same seplos BMS. 1 month later... Next question... Where can I get another, identical battery?

How do I Reset my sdc10 box?

The reset button is used to turn it on or off, hold it down for 3 seconds. You can download the manual from this very forum: Thank you. Mine is a SDC10-Box 5 Is there much difference? On 2023/01/19 at 11:50 AM, chrisc said: Thank you. Mine is a SDC10-Box 5 Is there much difference?

My Shoto SDC10-Box5 batteries are currently wall mounted in a vertical position by the installer (see photo).

Its just hanging vertically from normal storage brackets. I've also noticed from photos on internet and friends that this is often done (regardless of battery make/model) in South Africa installations at least, it does give a smaller ...
