

Secodi Power Systems is part of the F&#201;TIS Group, which is a privately-owned engineering organisation based in Spain. The F&#201;TIS Group employs more than 650 people in 9 countries, and focuses on the industries of heavy mobility (including construction, agricultural machines and many special vehicles), power generation and professional marine.

Secodi Power Systems has an experienced applications team with a deep understanding of the engine and its operating conditions. They support machine manufacturers in engine integration to maximise engine performance, efficiency and reliability.

Secodi is an official partner of the Perkins brand for the supply of engines and original spare parts. This long-lasting partnership of trust has given the company extensive and wide-ranging expertise in the distribution of engines and parts, as well as in ...

The Hong Kong Applied Science and Technology Research Institute (ASTRI), ASM Pacific Technology Limited (ASMPT) and Alpha Power Solutions (APS) announced that they are jointly developing the industry's first "Made in Hong Kong" SiC Intelligent Power Module (IPM) for electric vehicles (EVs).

This ground-breaking collaboration with Hong Kong-based upstream and downstream semiconductor companies to harness their innovative technologies to jointly develop a high-performance, high-power SiC electronic module will drive innovative electric drive technology that will support an impending popularization of EVs and could usher in a new ...
