

What are powersafe®; SBS batteries?

Manufactured to the highest international standards,PowerSafe®; SBS batteries offer outstanding performance in both float and cyclic applications. The high energy density of these batteries makes them ideal for system upgrades or reduced installation footprint,while still delivering dependable backup protection.

How do I contact EnerSys powersafe?

For more information,please call us on +44 (0) 1234 851155or send us a message below. The Enersys PowerSafe 12V125F delivers superior performance while occupying less space than conventional standby power batteries.

Where are powersafe®; batteries marketed?

PowerSafe®; products are marketed under the SuperSafe®; brand in the following specific countries - India,Indonesia,Malaysia,Singapore,Thailand,Australia and New Zealand. Featuring advanced Thin Place Pure Lead (TPPL) technology,PowerSafe SBS batteries deliver long life,high energy density and superior shelf life for telecommunications.

What is a powersafe V battery?

The batteries provide a long service life and a high performance rate while occupying less space than conventional standby power batteries. PowerSafe V batteries are constructed with V-0 rated,flame-retardant,ABS plasticfor thick wall containers and covers,combining high mechanical strength with excellent safety features.

What is a powersafe V top terminal battery?

SummaryThe EnerSys®; range of PowerSafe®; V Top Terminal batteries has been designed specifically for use in applications that demand the highest levels of security and reliability. With compliance to the most rigorous international standards, PowerSafe V-TT batteries are recognised worldwide as a premium solution for Telecom and Utility appli

What is a powersafe V-ft battery?

PowerSafe V-FT batteries deliver superior performance while occupying less space than conventional standby power batteries. Suitable for 19",23" and ETSI racking,the 12V125F provides users with the benefit of increased energy density. With all electrical connections at the front,installation and inspection are both quicker and easier.
