

Who is building the largest solar project in Trinidad and Tobago?

Today, the Government of Trinidad and Tobago has officially given the green light to project partners, bp, Shell and Lightsource bp to begin construction of the largest solar project in the Caribbean.

How can energy service companies support energy audits in Trinidad & Tobago?

Energy Service Companies (ESCOs) for the conduct of energy audits can be expected to play an increasingly important role, and T&T will be seeking to build local capacity in the conduct of energy audits and other energy services. Incentives currently being offered to encourage the conduct of energy audits in Trinidad and Tobago are as follows:

Is Trinidad ready for more solar power?

Every person involved in the process has certified solar installation training. Didn't know that was a thing in Trinidad, right? We're definitely ready for more solar power to make a better, more eco-friendly and sustainable world for us all. We understand that solar power is a bit more expensive than other power systems.

Today, the Government of Trinidad and Tobago has officially given the green light to project partners, bp, Shell and Lightsource bp to begin construction of the largest solar project in the Caribbean.
