

How much do solar panels cost in the UK?

For a 3-bedroom house in the UK: Solar panels cost roughly £9,600 for a 4.5kW system (including installation and a storage battery). Installation costs usually represent 10 to 20 per cent of the overall solar panel system price. You'll pay 0 per cent VAT on the cost of your solar panels and installation.

How much does a solar panel cost per kilowatt?

Exactly how much a solar panel costs per kilowatt depends on the type of solar panel you're talking about. Monocrystalline solar panels are the most expensive, and their cost per kW is somewhere around £1,000 - £1,500 whereas polycrystalline solar panels cost about £900 per kW.

How much does it cost to install solar panels?

This means that you can expect to spend anywhere between £600 and £3,000 on labour costs alone. Mounting systems, such as roof racks or ground mounts, are necessary to install solar panels securely. The type and quality of the mounting system can affect the cost, which ranges from £600 to £2,500.

Is now a good time to get solar panels in the UK?

In fact, between March 2023 and 2024, the median cost per kilowatt (kW) for a 0 to 4kW solar panel system has dropped more than 20 per cent. Combine that with the falling costs of solar battery storage, and the fact the energy price cap rose 10 per cent in October 2024, you'll find that now is a great time to get solar panels in the UK.

Who installs solar panels & batteries in the south of England?

Good Energy installs solar panels and batteries in the south of England through a network of local installers. If you have your panels installed by Good Energy Solar you can benefit from their Solar Savings Exclusive export rate of 20p/kWh. Ovo's solar packages start from £4,999 for 4 panels with 0% financing options available.

How much do monocrystalline solar panels cost?

The exact cost of monocrystalline solar panels will vary depending on the manufacturer and the size of the solar panels. As a rule of thumb, monocrystalline solar panels have their highest price point at about £1 - £1.50 per Watt. Polycrystalline solar panels, on the other hand, have a lower efficiency rating than monocrystalline panels.
