

“Sirius PV's solar panels are a cut above the rest. The quality control and craftsmanship that go into these Texas-made panels are evident in their performance and longevity. They're a favorite among our clients, and we trust them to deliver excellent results every time we install them.”

SIRIUS redefined the high-efficiency module series by integrating 182mm silicon wafers with multi-busbar and half-cut cell technologies. SIRIUS panels effectively combine these technologies to improve module efficiency and power output. Specifications: Pallet Size: 31 solar panels; Wattage: 415W (Up to 539W with Bifacial Gain)

half-cut cell technologies. Sirius panel combined creative technology effectively and extremely improved the module efficiency and power output. MBB HC BIFACIAL MONOCRYSTALLINE PV MODULE 400-415W. Less mismatch to get more power. Less power loss by minimizing the shading impact. Competitive low light performance.

land top solar panels Right investment in world standards, with high energy efficiency, and easy installation. Founded in 1981, ELIN INC. from the date of its establishment until today; with its expert staff, has completed its commitments on time without any problems, and all its works are shown as an example.

Zero Manual Intervention: From start to finish, panels are produced without manual intervention, ensuring consistency, reliability, and superior quality. Golden Module Buffer: Ensures IV equipment is automatically and regularly calibrated, providing the most accurate test results and maintaining high standards of performance.

Sirius PV, the newest addition to the renewable energy landscape in America. Established in 2021 as a subsidiary of Elin Energy, a renowned group founded in 1981, Sirius PV brings a legacy of expertise and innovation to the forefront of solar panel manufacturing.

Sirius PV, the newest addition to the renewable energy landscape in America. Established in 2021 as a subsidiary of Elin Energy, a renowned group founded in 1981, Sirius PV brings a legacy of expertise and innovation to the forefront of ...

At Sirius PV, we are not just manufacturing solar panels; we are reviving an ancient legacy of innovation and progress, just like our almost half a century old company, channeling the ancestral wisdom of Gobeklitepe into every solar solution we create. Our journey is powered by the stars, guided by history, and driven by the future.
