

The partner is responsible for the work packages SMART HOME and ADVANCED ENERGY MANAGEMENT. These are aimed at developing and demonstrating how partners' solutions can be integrated in a comprehensive smart home solution, as well as for energy management and flexible trading on the energy market.

At Advanced Energy Management Ltd. (AEM), we know that the most important thing in any business is people. AEM has carefully recruited the best and the brightest in the industry and we experience practically no turnover. We have a corporate culture in which our employees are trusted, valued, and respected.

NEDO is a three-year smart grid project whose principal partners are NEDO and its authorised contractor Hitachi, and the ELES company. Alongside ELES, a large number of stakeholders from Slovenia will participate in the project, which is why it can rightfully be called a national project and the only one of its kind in Europe.
