

Who is prime batteries technology?

Prime Batteries Technology, a breakthrough developer, manufacturer and distributor of lithium-ion batteries and bespoke storage systems, has signed an investment agreement today with EIT InnoEnergy, the innovation engine for sustainable energy supported by the European Institute of Innovation & Technology (EIT), a body of the European Union.

Why did EIT InnoEnergy invest in prime batteries technology?

The investment formalises EIT InnoEnergy as a shareholder in Prime Batteries Technology that will support the company in achieving its ambition to scale up annual production output to 8GWh, attracting and accessing talent, and paving the way for it to become one of the success stories of the European battery value chain.

Are prime batteries delivering advanced storage solutions to international customers?

"We are delivering advanced storage solutions to various international customers and we've already secured a majority of the orders for 2023 and 2024," said Vicentiu Ciobanu, CEO at Prime Batteries Technology. "The quality and performance of our products are confirmed by the fact that over 80 per cent of our sales goes to returning customers."
