

What is the relationship between the United States and Slovenia?

The United States established diplomatic relations with Slovenia in 1992 following its independence from Yugoslavia. The United States and Slovenia work together actively on a number of fronts and have developed strong, cooperative relations on a broad range of bilateral, regional, and global issues.

How do the United States and Slovenia work together?

The United States and Slovenia work together actively on a number of fronts and have developed strong, cooperative relations on a broad range of bilateral, regional, and global issues. Slovenia is an important partner in advancing the shared goal of regional political and economic stability.

Does the United States help Slovenia?

U.S. security assistance has helped Slovenia increase its contributions to global security and meet its commitments as a NATO Ally while also promoting peace and security in the neighboring Western Balkans region. The United States provides no development assistance to Slovenia. Bilateral Economic Relations

Does the United States invest in Slovenia?

The United States has worked to develop bilateral trade and investment with Slovenia, although U.S. investments in Slovenia have been modest. U.S. companies looking to do business in Slovenia face a challenging environment, particularly if they are interested in selling goods and services to the government.

How can the United States and Slovenia improve nuclear cooperation?

Both the United States and Slovenia intend to continue to enhance our civil nuclear cooperation under the auspices of the Nuclear Cooperation Memorandum of Understanding that was signed at the inaugural strategic dialogue in 2020, including through study visits, information sharing, and exchanges of experts.

What does the United States and Slovenia do for Ukraine?

On global and regional security issues, Slovenia and the United States stand resolutely with Ukraine and its people. In concert with our European and global allies, the United States and Slovenia are supporting the people of Ukraine's efforts to defend their country and democracy against Russia's brutal war of aggression.

To preserve and protect precious water resources in New South Wales, Australia, members of the state's Department of Planning, Industry and Environment must monitor water volume in dams and storage - and compare volume over time. Using the Planet platform and its daily, high-resolution images, NSW's remote-sensing team can estimate volume changes during the ...
