

Can a solar panel be used as a power bank?

But if you're really intent on having backup solar for your power bank, then a smart option is to purchase a separate solar panel to pair with your power bank. Then, you can use the solar panel itself as shade for your power bank as it charges, helping to extend its battery life.

Are solar power banks a good idea?

Power banks are awesome. A huge advantage is that they're environmentally-friendly and can maintain their charge without any electricity. Sunlight is all you need to charge your gear on the go. Having a solar power bank means being able to charge all your electronics anywhere, any time.

Is a boxwave solar power bank waterproof?

If you tend to expose your gear through some pretty rough conditions - whether for travel, work, camping, or other outdoor ventures - you'll appreciate that this solar power bank is designed to be waterproof, shock-proof, and dustproof, with safely sealed connection ports. The BoxWave Power Bank Solar Pack is the most durable you'll find.
