Smart Power provides you with all the components needed to build your own energy storage system. LiFePO4 cells / new grade A cells; Lithium-Ion cells / repurposed from electric vehicles; Battery management systems; Electrical enclosures; Cables, terminals, fuses, switches and other necessary components; Contact Smart Power &#187;

The new SBP Plus Series of uninterruptible power supply with Transformer-Based Filter (TBF(TM)) offers high performance and comprehensive power protection. This advanced power protection solution offers battery backup plus the ability to regulate voltage fluctuations through an integrated Automatic Voltage Regulator.

The ODROID SmartPower 3 is an easily deployable power supply that collects voltage, current and power of the system load to enable you to optimize energy consumption. LCD shows voltage, current and watts simultaneously while you can also see the graphical energy transient on your PC via USB interface. INCLUDES. ODROID Smart Power3; USB-C data cable

The project features a 125-kW mobile containerized battery system that can be quickly deployed to numerous

locations in order to best accommodate Anguilla's dynamic energy needs. The Gridspan Energy system is uniquely designed for plug-and-play use, with the ability to connect to a site in less than 15-minutes after transport.

Anguilla has rolled out a mobile energy storage pilot with the commissioning of a containerized battery from Gridspan Energy. The 125kW mobile battery system can be quickly deployed to sites and is operational within 15 minutes. This pilot program, the first of its kind in the Caribbean, has emergency response and solar storage capabilities. Source

During a press briefing on Tuesday, September 13, 2022, Mr Sutcliffe Hodge, CEO of the Anguilla Electricity Company, Ltd. (ANGLEC), shared plans with the media for the company's roll out of a phased approach to the delivery of renewable energy.

Enphase Energy, a global energy technology company based in Fremont, CA, is the world's leading supplier of microinverter-based solar and battery systems that enable people to harness the sun to make, use, save, and sell their own power--and control it all with a smart mobile app.

The Government of Anguilla is looking into the possibility of an alternative source of electricity for the island. This follows the signing of an MOU between the Anguilla Government and Gridspan Energy. The plan is for the provision of battery-powered electricity for potential consumers wishing to switch to that system.
