

Who is smartflower energy technology?

In 2010, the three founders of smartflower energy technology GmbH were living in Austria and brainstorming ways to circumvent the myriad issues plaguing the solar energy market. They knew many prospective users of clean energy were uninspired by the appearance of classic rooftop solar panels.

Are smartflower solar panels a good choice?

If you care about design and ease of use more than cost-effectiveness, and also do not need to cover all of your energy needs with one system, then the SmartFlower solar panel system can be a good option for you. Alternatively, a rooftop or traditional ground-mounted solar panel system will be much more affordable and practical for most consumers.

Who owns SmartFlower Energy?

Energy Management Inc. (EMI) owns SmartFlower Energy. EMI, a Boston, MA corporation with over 43 years of experience developing large energy projects, acquired Smartflower in 2018.

What is the warranty on a smartflower solar panel system?

The SmartFlower solar panel system has a system warranty of 5 years and a module performance warranty of 25 years. This also differs from other solar panel systems that have 20 to 25-year warranties for both the system and performance. Even most ground-mounted systems with sun-tracking capability have 10-year system warranties.

SmartFlower ist die innovative skulpturale Sonnenblume mit fortschrittlichen Photovoltaik-Solarmodulen, die sich für maximale Effizienz öffnen und nahe an der Reinigung halten.

At SmartFlower, we are leading the way to a bright future for our planet. Our Vision To make the world a greener place, to bring solar to new heights of technological innovation, and to offer an elegant option to those who believe in sustainability for a better energy and environmental future.

SmartFlower Solar produces unique, ground-mounted solar panel systems that include a sun tracker and a number of other high-tech features. This "smart" solar panel system is an all-in-one, self-sustaining system that differs greatly from the traditional monocrystalline or polycrystalline rooftop panels.

At SmartFlower, we are leading the way to a bright future for our planet. Our Vision To make the world a greener place, to bring solar to new heights of technological innovation, and to offer an ...

smartflower's tagline - "the world's first all-in-one solar system" - neatly summarizes the product's offering and key differentiator. In 2010, the three founders of smartflower energy technology GmbH were living in Austria and brainstorming ways to circumvent the myriad issues plaguing the solar energy market.
