

AMEA Power, one of the fastest growing renewable energy companies based in the Middle East, announced today it has signed a concession agreement and 25-year Power Purchase Agreement (PPA) with the Government of Ivory Coast for a ...

The selected IPPs will build solar power plants capable of delivering 60 MWp to the national grid in Ivory Coast. The solar plants are being built under the "Scaling Solar" program, an IFC initiative to leverage public-private partnerships (PPPs) for the rapid construction of solar power plants in developing countries, particularly in Africa.

Situated in Sokhoro, Tchologo region, in the north of the country, the solar power plant plays a pivotal role in Côte d'Ivoire's journey towards energy independence and aligning with COP26 goals.

Ivory Coast is progressing in solar power plant development, with ten multinational companies qualifying for partnership. The plants, to be located in the Bafing region, are part of a public-private partnership. They are under the World Bank's Scaling Solar program.

The selected IPPs will build solar photovoltaic power plants capable of delivering 60 MW to the Ivory Coast's national grid. These projects are in line with Ivory Coast's target to generate 42% of its electricity from renewable energy by 2030.

Ivory Coast will be building a new solar power plant over the next few years. This is the aim of Kong Solaire, which has just been awarded the concession for a 50 MWp photovoltaic solar power plant by the Ivorian government.

The selected IPPs will build solar photovoltaic power plants capable of delivering 60 MW to the Ivory Coast's national grid. These projects are in line with Ivory Coast's target to ...

In Ivory Coast, 10 multinational companies have been qualified following a call for tenders to build two photovoltaic solar power plants under a public-private partnership (PPP) in the Bafing region. The plants will be built ...
