

St. Kitts and Nevis portfolio of renewable energy projects is currently composed of one future solar energy facility in St-Kitts and one geothermal project in Nevis. The solar ...

The Project, scheduled for completion in 2025, will provide Saint Kitts with 35.7 MW of solar capacity and 43.6 MWh of battery storage for the delivery of clean, renewable, and reliable energy for 25 years.

St. Kitts and Nevis will add a utility-scale solar and storage plant to meet one quarter of its electricity needs. The 35.6MW solar park and 44.2MWh battery storage facility will be built and operated by Leclanch&#233;, a Swiss firm acting as EPC contractor.

The solar PV will supply St. Kitts with 30 - 35% of the annual electricity demand utilising sustainable, solar energy with zero emissions. The solar and storage system will replace over 4,000,000 gallons of diesel per year.

"The cost of this project to St. Kitts and Nevis citizens is zero," said Bryan Urban, Executive Vice President and Head of Leclanch&#233; Stationary Business Unit. "It is being fully ...

Speaking at the groundbreaking ceremony on Friday 17 June, MPC CEO Martin Vogt said: "Today marks the start of a pioneering hybrid renewable energy project that combines solar power and battery storage not just for Saint Kitts and Nevis, but for ...

The 35.6 MW solar energy plant and 44.2 MWh battery storage facility will be built on government provided land in the Basseterre Valley, adjacent to the City of Basseterre and the current SKELEC PowerStation on the island of St. Kitts.

During his Budget Address 2020 Thursday, Prime Minister, Dr. the Honourable Timothy Harris, said the government of St. Kitts and Nevis, in collaboration with The St. Kitts ...

EcoDirect designs and supplies solar + battery projects in St Kitts & Nevis. Our team has the tools and experience to get your next project designed and delivered. Request a Quote! Toll ...

Speaking at the groundbreaking ceremony on Friday 17 June, MPC CEO Martin Vogt said: "Today marks the start of a pioneering hybrid renewable energy project that combines solar power and battery storage not ...

St. Kitts was once known as the Gibraltar of the West Indies for its domination of 18th- century colonial battles. How the island rose to become the world's leader in sugarcane cultivation, an inspiration for the industrial revolution in the process.

Leclanch&#233;, Solrid, and MPC Energy Solutions began construction on a solar-plus-storage project in St. Kitts and Nevis. The project involves pairing a 35.6 MW solar PV ...

The 35.6 MW solar energy plant and 44.2 MWh battery storage facility will be built on government provided land in the Basseterre Valley, adjacent to the City of Basseterre ...

"The cost of this project to St. Kitts and Nevis citizens is zero," said Bryan Urban, Executive Vice President and Head of Leclanch&#233; Stationary Business Unit. "It is being fully paid-for over 20 years through the savings created by the switch to clean and reliable solar energy."

We're so confident we can find the right solution for your solar needs we'll come to your establishment or home and walk you through all the options at no cost. However, formal quotations and assessments are done at a cost.
