UK solar company Solarcentury said on Tuesday it has won a EUR-5.7-million (USD 6.6m) contract to build two solar-powered mini-grids in Eritrea, East Africa. As part of the deal, Solarcentury will design and construct the two mini-grids using solar photovoltaic (PV) panels and lithium batteries.

This project is a state-of-the-art hybrid power system, combining solar photovoltaics with lithium batteries and backup diesel generators in a location remote from the country's power grid. The system integrates

world-class technologies, including Tesla batteries and Caterpillar generators.
