

ECSE Group is certified by Egyptian Ministry of Electricity and Energy to work in the field of Solar Power Systems and linking these systems to state power grid in Egypt. Ever since its establishment in 2015, ECSE Group has emerged as a dynamic setter in the field of renewable energy systems, energy storage and power management systems across ...

With Onasolar Net-Metering Solar Energy Solution, you can benefit from the sun to produce your electricity and have your own Solar System and get a FREE OF CHARGE electricity bill up to 20 years. Or Reduce your Electricity bills up to 15% through buying electricity from us.

Since 2014, Egypt has enacted various renewable energy legislations, laying the foundation for pioneering companies to thrive in the market. The companies that emerged and later became staples in the solar ...

8 ????&#0183; Egypt has announced an ambitious plan to establish 10 gigawatts of renewable energy capacity by 2028 as part of its National Platform for the NWE Program. The initiative, ...

Egypt has a wealth of advanced solar technology, groundbreaking ideas, and abundant tropical sunshine, making it an excellent country to utilize solar technology and achieve its global climate change ...

Solar technology is the fastest-growing renewable technology across the Middle East and Africa. Driven by a growing demand for clean energy, solar offers limitless carbon-free electricity and thermal energy. The most commonly used system is photovoltaic (PV) solar, which is scalable and adaptable to different applications and situations.

8 ????&#0183; Egypt has announced an ambitious plan to establish 10 gigawatts of renewable energy capacity by 2028 as part of its National Platform for the NWE Program. The initiative, unveiled during the inauguration ceremony of the Abydos 1 Solar Power Plant in Aswan, represents a major milestone in the country's journey toward a sustainable energy future.

Egypt has a wealth of advanced solar technology, groundbreaking ideas, and abundant tropical sunshine, making it an excellent country to utilize solar technology and achieve its global climate change objectives.

Onaelectric is one of the largest C& I Solar Energy System Integrators in Egypt. A total installed capacity of solar energy projects provided to our customers equivalent to planting 12,100 acres of trees per year, powering almost 10,000 homes each year, taking 11,200 cars off the roads, avoidance of about 4,991,050,000 Kg of CO2 each year, and ...
