

Why is solar important in Jersey?

Solar is a vital component of modern homes in Jersey, contributing to the state's renewable energy and energy management. For those focused on the bottom line, solar serves as a safeguard against rising grid electricity costs.

What is New Jersey solar for all?

New Jersey Solar For All New Jersey Solar for All is a federally funded program awarded under the U.S. Environmental Protection Agency's Greenhouse Gas Reduction Fund.

Can older solar projects be registered in New Jersey?

Older projects may be registered in one of New Jersey's former solar programs, the SREC Registration Program (SRP) or the Transition Incentive (TI) Program, through which they continue to receive SRECs or TRECs. SRECs, TRECs, and SREC-IIs represent the clean energy attributes of electricity generated from a solar energy project.

What is a solar energy certificate in New Jersey?

In 2004, New Jersey adopted a program promoting the use of Solar Renewable Energy Certificates (SRECs) to meet the solar energy carve-out of the state RPS. In the 2011 Energy Year, 306,000 SRECs (or MWhs of solar electricity) must be purchased by electricity suppliers in the state in order to meet the state solar requirement.

Is New Jersey a good place to install solar panels?

According to the Solar Energy Industries Association (SEIA), New Jersey is ranked 8th in the United States for total installed solar PV capacity, behind California, Texas, Florida, North Carolina, Arizona, Nevada and Georgia.

How many schools in New Jersey have solar power?

New Jersey has 662 schools with 194 MW of solar power installed as of 2022, the second most after California. The former New Jersey Clean Energy Program rebates on PV equipment have been discontinued.
