

Is a solar generator worth it?

A solar generator may be worth it depending on how you use it. The cost of the generator easily pays for itself if you live somewhere that receives ample sunlight and you utilize the energy from the generator as a home backup. Alternatively, if you frequently go on road trips, a solar generator is also worth it.

How much does a home backup solar generator cost?

A home backup solar generator capable of powering most appliances, keeping your LED lights on, and keeping your electronics charged and running will cost between \$2,000 and \$10,000 depending on capacity, power rating, and included accessories. Let's look at how these choices will impact how much you'll spend.

How much does a 2kWh solar generator cost?

A basic home 2kWh solar generator will cost you between \$1,600 and \$2,000. You could probably power a couple of appliances, keep lights on and recharge devices with a 2kWh solar generator. Our favorite 2kWh solar generator is the BLUETTI AC200P - or upgrade to the AC200MAX, which can be extended by adding additional power packs.

How much does a solar generator cost?

Good examples include the 6kWh Goal Zero Yeti 6000X, the 4.8kWh Renogy Lycan 5000, and the 5.1kWh BLUETTI EP500. Expect to pay \$5,000-\$8,000 depending on accessories, grid-tie equipment, and solar panel choices. Pre-configured solar generators that can store more than 6kWh of energy are expensive and relatively new.

How much does a solar panel cost?

The most common addition is solar panels. These come in handy during a power blackout when you cannot recharge the solar generator from the outlet. A 200W solar panel costs between \$150 and \$250. If you want a flexible or foldable solar panel, expect to pay about \$300.

How much does a solar power kit cost?

A complete solar power kit for whole home use with batteries, inverter, battery charge controller, safety breakers, grid-tie equipment, installation accessories, and solar panels will cost between \$8,000 and \$30,000 depending mostly on capacity and peak power rating.

In this guide, we discuss the cost of a range of whole house solar generator options, from 2,000 watt to 5,000W+ systems. We also discuss the price of extra components you may need such as solar panels and extra battery packs.
