

What are the best solar generators?

The biggest option of our three featured solar generators is BLUETTI's Portable Power Station, a portable solar generator featuring 2,000 W output - that's even enough to keep a fridge or window air conditioner running for some time.

What is the difference between a solar backup generator and a generator?

Both generators provide solar power but differ in terms of wattage capacity, energy storage, and cost. Solar backup generators are designed to power up when the electrical grid fails and are an efficient alternative to installing a complete system. These generators use several batteries to store energy for high-wattage output.

Which solar generator should I buy?

Anker is another leader in the backup power space, and the Anker 757 solar generator is the model I recommend to friends and family who are looking for top value. It impressed our testers with its smart design, solid construction and competitive pricing.

Are portable solar generators a good choice?

Portable solar generators offer a quiet, green solution for powering up during electrical outages or off-grid excursions. Find out how today's top models fared in our hands-on tests. We may earn revenue from the products available on this page and participate in affiliate programs. [Learn More >](#)

Buy now. Jackery Explorer 1500. Looking for a solar generator for around \$1000? Jackery's Explorer 1000 is a great option! A little smaller in both output and storage capacity than Goal Zero's Yeti 1500X, this solar ...

The Bluetti EP500Pro is the best LiFePO4 solar generator because it leads the industry with a battery cycle life of 6,000+ cycles. Its 5,100Wh battery provides its AC ports with a maximum of 3,000W ...
