"Roofit.solar caught our attention with a unique metal solar roof solution that allows to make a significant contribution to the green energy transition in terms of its aesthetic appearance, ease of installation as well as system cost and reduced carbon footprint," says Greg Zavorotniy, the representative of BayWa r.e. Energy Ventures which ...

The episode of the long-running Channel 4 show "Grand Designs," which follows the construction of a single house from breaking ground to completion, aired last November. Solar panels made by Estonian firm ...

In a groundbreaking move, Estonian solar energy company Solarstone unveils its state-of-the-art Building-Integrated Photovoltaics (BIPV) factory, establishing itself as the largest of its kind in Europe by production capacity. The factory has the capacity to assemble 13,000 integrated solar panels per month.

Estonia has seen a significant increase in its solar power capacity in 2022, becoming one of the leaders in solar power per capita among EU members. With growing investments and innovative startups, it now aims to be fully green-powered by 2030.

Our solar parks are located in Estonia and Poland. We entered the solar power market in 2017, establishing a solar power station on the roof of the Estonia dairy farm in Järvamaa, where we installed 644 solar panels. We currently produce solar energy in Estonia and Poland, where we have a total of 43 solar parks. Our solar parks contain over ...
