

Many properties in the Isle of Man are suitable for solar PV installations and you would be surprised how much energy you can produce. Click on the pictures below and you can see how much energy the two systems generate right now!

Innovative company in the Isle of Man specializing in roofing and solar solutions, elevating homes and businesses to new heights of sustainability and energy efficiency. What we do: At Island Roofing & Solar Limited, we blend the best of two worlds - roofing expertise and solar ingenuity .

Manx Solar Electrical undertakes every aspect of the installation, including annual servicing plus all requisite maintenance work. With utility prices rising and green issues climbing the agenda, there has never been a better time to invest in alternative energy sources.

Solar panels convert the light from the sun into electricity, with no moving parts they are very reliable a 30 year life is realistic, that means with payback averaged at 9 years, you can have 21 years of free electricity! Even on a bright Manx winters day a panel can generate a considerable amount of electricity (perhaps 30% of capacity).
