

Let Solar Island Energy help your Bahamian business save significantly on energy bills, have reliable, self-contained utilities, improve its long-term value, and be less dependent on fossil fuels. We provide a free consultation to assess ...

Solar panels can be easily integrated onto the roof of a shipping container, providing a substantial amount of energy without taking up valuable land space. This makes it an excellent option for businesses or individuals who need a reliable energy source but don't have the luxury of expansive real estate.

The solar cells of HiS-S5850J are half the size of those found in standard panels. Major advantages include reduced power consumption, extended life and enhanced efficiency in low-light conditions. The efficiency of ...

Powerplus Bahamas is an industry-leading Solar and Alternative Energy Expert in The Bahamas. We only offer our customers the highest quality products and technologies available on the market - and for the best prices you'll find anywhere.

The solarfold Photovoltaic Container is mobile for universal deployment with a light and versatile substructure. The semi-automatic electric drive unit manoeuvres the mobile photovoltaic system into its operating position rapidly and smoothly along a length of around 123 metres. The fold-away PV generator requires neither cable trenches and heavy lifting equipment, nor is it ...
