

Will Kosovo use solar energy for district heating?

In late December 2022, Kosovo became the first country in the Western Balkans Economy to use solar energy for district heating. Kosovo's Minister of Finance, Labour and Transfers, Hekuran Murati, said the project would ensure access to the central heating system for about 38,000 citizens.

Does Kosovo have solar power?

Kosovo has the potential of capturing solar energy directly and converting it to electricity. The region of highest solar potential based on global horizontal irradiation is the southeastern part of Kosovo, centred around the city of Gjakova. Solar power is already used on the roofs of some buildings.

Who is Unisolar?

Based on previous personal experiences in energy systems and having it all the necessary European qualifications for photovoltaic systems, the two co-founders established company Unisolar L.L.C., with the aim of reaching the heights of a successful business in the field of renewable energy in Kosovo and wider.

How Unisolar is developing our country?

Here you can see how we are developing our country, with the tireless work of our team ... Unisolar LLC, was founded in January 2021, by electrical energy engineers and the renewed one: Mr. Bujar Guci in Kosovo. Unisolar LLC was founded seeing the need for a serious company, which would be closer to the customers in the field of renewable energy.

Elen has managed to complete the construction of the entire photovoltaic solar panel system on our company in Fushë Kosovë, so this reference is released as evidence that they have successfully fulfilled all the obligations of the contract in ...

Discover sustainable solar energy solutions with Alfa Solar Energy. We specialize in solar panel installation, maintenance, and consultation. Join us in harnessing clean, renewable power for a brighter future. Get a quote today.

Jaha Solar është lider në sektorin e energjisë diellore dhe inovacionit në vendin tonë. Jaha Solar prodhon panele diellore fotovoltaike me performancë të lartë dhe cilësi të lartë sipas ...

Unisolar L.L.C. është partneri ekskluziv i kompanisë AE SOLAR GMBH, për panelet fotovoltaike në Republikën e Kosovës dhe të Shqipërisë. Kjo, na bën krenar neve si kompani, duke n'at motivuar për arritjet e sukseseve së bashku të larta në fushën e energjisë së ripërtirë.

Unisolar L.L.C. është përfshirë ekskluzivisht në kompaninë AE SOLAR GMBH, për panelet fotovoltaike në Republikën e Kosovës dhe të Shqipërisë. Kjo, na bën krenarë për kompaninë, ...

Unisolar L.L.C. is the exclusive representative of the company AE SOLAR GMBH, for photovoltaic panels in the Republic of Kosovo and Albania. This made us proud as a company, motivating us to achieving the highest possible successes in the field of renewable energy.

The ProCredit group's 3 MWp solar park is a beacon of hope for a cleaner and more sustainable tomorrow. By harnessing the power of the sun, the immediate community will benefit from a reliable source of clean energy, thus reducing its ...

Jaha Solar manufactures high performance and high quality photovoltaic solar panels according to IEC and ISO production standards. Our quality and certified products have opened the possibility to export photovoltaic panels to countries ...

The pace of development for solar projects in Kosovo is increasing. There is growing interest from investors to engage in developing new solar capacities across the country. Currently there are roughly 10 MW generated through small-scale solar energy projects.

Jaha Solar manufactures high performance and high quality photovoltaic solar panels according to IEC and ISO production standards. Our quality and certified products have opened the possibility to export photovoltaic panels to countries in the region and beyond.

Jaha Solar është lider në sektorin e energjisë diellore dhe inovacionit të vendit. Jaha Solar prodhon panele diellore fotovoltaike me performancë të lartë dhe cilësi të lartë sipas standardeve të prodhimit IEC dhe ISO.

The ProCredit group's 3 MWp solar park is a beacon of hope for a cleaner and more sustainable tomorrow. By harnessing the power of the sun, the immediate community will benefit from a reliable source of clean energy, thus reducing its reliance on fossil fuels and in turn reducing greenhouse gas emissions.
