

## **Solar panel required for 15 hp motor Pitcairn Islands**

To run a 15 HP air conditioner, you typically need around 20 to 25 solar panels. This depends on panel efficiency and sunlight availability. Solar power is increasingly popular for running high-energy appliances like air conditioners.

about the Pitcairn Island distribution system might be of interest: ATTACHED is a document describing, in non-technical terms, what's there now, and proposing a solar boost for the diesel generators. (System description starts on PDF page 4.) What is equally fascinating is to take a tour of the "streets" via google maps, using STREET VIEW option.

Pitcairn's authorities have launched a renewable energy project designed to replace fossil fuels with solar energy. The goal is to replace 95% of the current diesel consumption on Pitcairn Island (75,000 liters per year) with a combination of energy saving and solar electricity through the installation of a hybrid photovoltaic solar energy ...

Pitcairn Islands . Search for: ...
