

Dubai, United Arab Emirates; September 26 th 2023: AMEA Power, one of the fastest growing renewable energy companies based in the Middle East, announced today it has reached financial close on its 120MW solar PV project in Tunisia. When commissioned, the US\$86 million project, will be the company's first operational asset in the country.

Dubai's AMEA Power has started working on its Tunisia solar power venture. The groundbreaking ceremony for the 120MWp Kairouan Solar Photovoltaic project, funded by the International Finance Corporation (IFC) and the African Development Bank (AfDB), was held earlier this week.

Expected to commence operations in Q4 2025, the Kairouan Solar PV project will become AMEA Power's first operational asset in Tunisia, generating 222GWh of clean energy annually. This output is enough to supply over 43,000 households and will reduce carbon emissions by 117,000 tonnes throughout its lifetime.

Tunisian solar panel installers - showing companies in Tunisia that undertake solar panel installation, including rooftop and standalone solar systems. 38 installers based in Tunisia are ...
