

Midsummer has developed the panel exclusively for Sweden's leading manufacturer of roof tiles, Benders, whose tiles are installed on 60 per cent of all the roofs in Sweden. The new solar ...

Experience the benefits of transforming your home from a traditional roof with visible solar panels to a sleek, modern solar roof. Discover how you can reduce energy bills, increase property value, and enjoy a stylish, eco-friendly upgrade.

Midsummer SLIM 2 is an aesthetic solar roof that combines thin solar panels with a classic seamed sheet metal roof for a discreet design. It allows for both complete roof replacement and retrofitting, where the seam width of the metal and panels is adjusted for optimal performance without compromising on appearance.

Our main goal is to build the Roofit.Solar brand Sweden and to install our integrated solar roofs that we can proudly use as a reference for our new customers. As I mentioned before, we're currently focusing on residential houses in the greater Stockholm area, but we also want to expand our reach to help more businesses in their solar journey.

Invest in high-quality solar panels and reduce your energy costs with SunPro Scandinavia. We have the advantage of being able to offer the market's best prices on certified solar panels from SunPro Power with a 30-year warranty for durability and performance.

Metsolar produces unlimited variety of tailored BIPV solar panels for Sweden, that are efficient, cost competitive and have exclusive design possibilities. Our agile manufacturing provides flexibility and efficiency, therefore our BIPV module styles differentiate in size, shape, transparency and power options to fit your project vision and ...

Our solar panels are designed for easy maintenance, allowing for maximum use of roof space. They are durable enough to walk on and are adapted for activities such as snow removal, making them a practical and sustainable choice for all types of climates.

Midsummer has developed the panel exclusively for Sweden's leading manufacturer of roof tiles, Benders, whose tiles are installed on 60 per cent of all the roofs in Sweden. The new solar roof panels will be integrated with Benders' most popular 2-barrel Palema model.
