

Is there a market for solar energy in Rwanda?

Only few companies in Rwanda are active in the field of solar energy. They focus mainly on the market for larger systems for public institutions, e.g. hospitals, schools etc through public tenders. In addition they and others are also trying to sell solar home systems but the market for solar lanterns and small home systems is still in its infancy.

How much does a solar home system cost in Rwanda?

Energy Private Developers (EPD) has currently registered over 40 solar companies who have invested in Solar Home System (SHS) business. SHS kits Capacities available on Rwandan market are those of 12W,20W,40W,50 W,100W,120W,200W and 300W with average price per a kit of 67,678 Rwf.

Is Rwanda a significant source of solar energy?

Rwanda has a moderate source of solar energy,with an average solar radiation of 4 - 6 kWh per square meter per day. It has had a useful experience with the 250 kW Kigali solar project and solar water heaters. However,Rwanda's energy mix is currently dominated by biomass,which accounts for about 85% of primary energy use.

SOLEKTRA is a leading provider of clean renewable energy solutions such as Solar Home Systems, Solar Street Lights, Solar Mini Grids, Smart Solar Irrigation, Solar Water Heaters, Solar Rooftop Solutions, Water Solutions, Clean Cooking Solutions, and other groundbreaking technological solutions.

We are an EPC company based in Kigali, Rwanda, since 2005. We specialize in on-grid and off-grid solar energy systems, electrical installations and energy audits. For the past decade, we have immersed ourselves in understanding and solving the energy challenges of those in East Africa.

A few solar panels connected to a solar charge controller, a battery bank and a 4000 watt power inverter could have you en route to energy independence that would be invaluable in the country of Rwanda. Achieving off-grid, mobile and/or emergency backup power in Rwanda is an extremely valuable resource.
