

We take great pride in presenting the first solar power plant on land in Montenegro. Our company was founded in 2021 with a mission to produce green energy. Additionally, we are engaged in improving the energy efficiency of buildings to assist our clients in reducing their energy consumption and costs.

Solar energy developer Cevo Solar has officially put into operation the first ground-mounted photovoltaic facility in Montenegro. The 4.4 MW unit, also called Cevo Solar, was built in the village of Cevo, close to the ...

The network interactive inverter controls and monitors the electricity connection from power plants. In addition, it also controls the disconnection of excess current from the plant. It ensures demand-based dispatching of power during peak ...

Pioneering Solar Power Plant in Montenegro We proudly announce that the solar power plant in Cevo is the first of its kind in Montenegro, with a capacity of 4.42 MW, marking a significant step towards utilizing renewable energy sources in ...

Montenegro's power transmission system operator CGES has so far signed six connection agreements for solar power projects. Their total peak capacity would amount to 1.64 GW in peak capacity. The investors are M Energy, Sun Horizon, Obnovljivi izvori energije, Solar Power, EE Korita and Agenos Energy

The largest rooftop solar plant in the country, which comprises 4,100 solar panels and 20 inverters, was connected to the grid on August 6, GGEN said in a statement on its website. The plant was installed on the rooftop of Voli's logistics and distribution centre in the capital Podgorica.

3 ???· Montenegro has a variety of energy resources that include: hydropower, wind energy, solar radiation, biomass and coal reserves. In the total installed power production capacity, hydropower plants take a share of 66.05%, thermal power plant 21.08%, wind power plants 11.06% and solar power plants 1.81%.

Solar energy developer Cevo Solar has officially put into operation the first ground-mounted photovoltaic facility in Montenegro. The 4.4 MW unit, also called Cevo Solar, was built in the village of Cevo, close to the country's historical capital Cetinje.
