

What is a boxpower solarcontainer?

The BoxPower SolarContainer is a pre-wired microgrid solution with integrated solar array, battery storage, intelligent inverters, and an optional backup generator. Microgrid system sizes range from 4 kW to 60 kW of PV per 20-foot shipping container, with the flexibility to link multiple SolarContainers together or connect auxiliary arrays.

How many kW can a solar container produce?

3.8 kW to 60 kW of PV per 20' container Our most versatile solution, the SolarContainer is ideal for utility-owned remote grids, critical facilities backup, and commercial applications. Rugged and rapidly deployable, the MiniBox is a plug-and-play microgrid solution for telecommunications and small commercial projects.

What solar container options does boxpower offer?

BoxPower offers standard SolarContainer options which we configure to fit your needs. BoxPower SolarContainers are highly configurable, with the ability to seamlessly adjust the solar, battery, and inverter capacities to optimally serve your energy loads. Component size ranges for a single container are as follows:
