

Can hairdressing salons save energy?

Working with 20 salon owners and colleagues in the Centre for Energy and Environment at the University, Denise and her team identified key areas in which hairdressing salons could save energy. They found that heating water is the most energy-intensive activity in a hair salon - far more than, for example, hair drying.

How much energy does a salon save a year?

Adopting these eco-friendly practices can save the average four-seat salon 286,000 litres of water and 24,150 kWh of energy per year, equating to an annual saving of £5,300. Industry impact In 2017, Denise launched an online sustainable salon certification and virtual salon training programme for salons and stylists.

How can a hair salon be sustainable?

Implementing a laundry system using energy-efficient machines and eco-friendly detergents like Dominant clinic laundry powder, can further enhance your salon's sustainability efforts. Why Sustainability in Hair Salons Matters Embracing sustainability in hair salons is crucial for several reasons.

How can I make my salon resource sustainable?

You'll also get a copy of the Salon RESource sustainable toolkit to download!

- o Walk, cycle or e-scooter everywhere you can, including the daily commute.
- o Alternatively, take public transport. Encourage your team to do the same.
- Be Switched On... And Off
- o Only switch on lights in areas you are using.

How can a salon save money?

- o Heating hot water is the most expensive and energy intensive activity in a salon, so everything you can do to reduce using it is important.
- o This includes washing clients' hair, washing towels and gowns and washing clothes at home.
- o Wash at lower temperatures where possible (better for hair condition too), or on the cold-water programme.

How can a hairdresser promote sustainability?

As a hairdresser you talk to many people, so you are in a great position to promote less energy-intensive products and practices and other sustainable actions, both in the salon and at home.

- o Place information fliers and eco-tip stickers at styling positions (recycled materials only!) and encourage stylists to discuss sustainability topics.
